

Dear Jayasurya M,

Based on your interview, CodeMagen Technologies Pvt Ltd is pleased to offer you an internship for the position of Devops Engineer .Your Date of Joining will be on 15.04.2025. Duration of your internship shall be 12 Months . During our internship, your base work location will be at our Bangalore Office, and you will be directly reporting to Kavin P.

Your primary responsibilities shall include but not limited to the following:

- Design, develop, and maintain Continuous Integration/Continuous Deployment (CI/CD) pipelines for seamless software delivery and automation.
- Deploy and manage infrastructure using Infrastructure as Code (IaC) tools like Terraform, Ansible, or CloudFormation, ensuring scalability and reliability.
- Configure, monitor, and optimize cloud environments (AWS, Azure, GCP) and on-premise servers to ensure high availability and performance.
- Implement monitoring (Prometheus, Grafana), logging (ELK, Splunk), and security best practices, ensuring system reliability and compliance.
- Deploy and manage containerized applications using Docker and Kubernetes for efficient scaling and resource optimization.
- Work with development, testing, and operations teams to streamline workflows, troubleshoot issues, and improve overall system performance.

Your performance will be reviewed on monthly basis and constructive feedback will be given in timely manner.

Your stipend during internship period will be INR 20,000/- (INR Twenty Thousand Only) per month.

Notice period during the internship shall be 15 calendar days.

Please review, sign and return via email to confirm acceptance, no later than 14-April-2025.

Accepted

Jayasurya M
